Facing the new normal, many companies have embraced a work from home strategy. Storage of sensitive information is critical in any office setting, so the challenge of ensuring the security of confidential information while employees work remotely needs to be a part of your container plan. Considering these new priorities, we introduce Jake, Connor & Crew's work from home solutions. Offering compact, "home office-friendly" designs that fit when space is a concern, these container options will allow employees to control the security of their sensitive information offsite.

The Pup Series

- Sleek, narrow design to fit within tight spaces

The 32Gal Pedigree Series

- Easy to sanitize. Wheels make it great for moving and home pick up

The Bag and Collar

- Durable, reusable and great for high volume collection

The Seal

- Perfect tool to secure and track your shred bag

The Demo Console

- Desk top container for smaller volumes. Perfect for receipts.

The 24" e2Console

- Standard console – Shorter under desk size.
