

EXECUTIVE Series

STRENGTH SECURITY INNOVATION

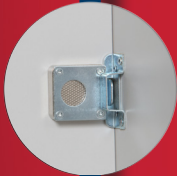

Created in 1995, our Executive Console set the standard for document protection worldwide. Selling more than all other consoles, our Executive Console combines unmatched security, design and strength, resulting in the longest field life of any console in the world. Produced in grey melamine with no plastic structural components, edge banding on all four sides, with your choice of collection bag or box insert, our Executive Console is also LEED and JCAHO compliant in some sizes. Now available with our patent pending TRI-Lock system, as well as multiple color and locking options, the Executive Console is your most proven choice.

Full glue and dowel assembly, maximizing strength and durability

Solid steel hinge with multiple contact points

Reinforced TRI-Lock System for increased security and durability

Grommeted front slot provides security, structural integrity and tamper protection

Plastic tack glides for easy maneuvering and protection from wet surfaces
