

THE EXECUTIVE CONSOLE®

e2CONSOLE Series

STRENGTH SECURITY INNOVATION

Full glue and dowel assembly, maximizing strength and durability

180 degree solid steel hinge with multiple contact points

Reinforced TRI-Lock System for increased security and durability

Plastic tack glides for easy maneuvering and protection from wet surfaces

Increased collection efficiency with the box insert

Designed with your driver in mind, our e2Console is remarkably 25% less weight than similar consoles without sacrificing security or paper volume. The e2Console provides peace of mind by meeting Joint Commission (JCAHO) and HIPAA compliance as well as by being backed with the longest warranty on the market. Designed with the same considerations as our Executive Consoles®, in office friendly grey melamine with your choice of collection bag or box insert, our e2Console has become the strongest, most secure console on the market. Now available with our patent pending TRI-Lock system, as well as multiple color and locking options, the e2Console is your most versatile choice.
