

THE EXECUTIVE CONSOLE®

Series

STRENGTH SECURITY INNOVATION

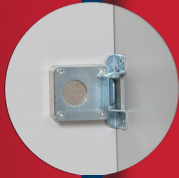

The ORIGINAL. Now BETTER! Created in 1995, our Executive Console® set the standard for document protection worldwide. Today, the Executive Console® still combines unmatched security, design, and strength, resulting in the longest field life of any console in the world. The new dimensions allow 15 consoles per pallet resulting in greater shipping efficiencies. Manufactured in grey melamine with no plastic structural components, featuring our patent-pending TRI-Lock system, our Executive Console® is also JCAHO compliant in most sizes. With additional upgrades including edge banding on all four sides, box inserts or slam locks, as well as multiple color and locking options, the Executive Console® is your most proven choice.

Full glue and dowel assembly, maximizing strength and durability

Solid steel hinge with multiple contact points

Reinforced TRI-Lock System for increased security and durability

New redesigned paper slot grommet for increased security

Plastic tack glides for easy maneuvering and protection from wet surfaces
